

MAISSANE
HOLDING

DEPARTMENT
MINING

**STRATEGIC PRODUCTS, HIGH-TURNOVER
CONSUMABLES & PPE EQUIPMENT**

Securing your operations, optimizing your yield.
Logistics expertise serving the mining industry in Africa.

OUR MINING PRODUCTS OFFERING

Through its Mining Department, MAISSANE HOLDING offers a comprehensive range of high-turnover mining products, personal protective equipment (PPE), and technical solutions tailored to the operational realities of African mining sites (industrial, semi-industrial, and structured artisanal).

Our offering is designed to guarantee:

- **Continuity of mining operations**
- **Safety of personnel and facilities**
- **Optimization of technical performance**
- **Compliance with HSE and international standards**

We provide an integrated service including: international sourcing, importation, strategic warehousing, mining logistics, and on-site delivery, ensuring rigorous traceability and high responsiveness.

01

MINING CHEMICALS (HIGH TURNOVER)

GOLD PROCESSING REAGENTS (CIP / CIL / CIC)

Essential products for mineral processing plants and gold recovery units

- **Activated carbon for leaching (CIP/CIL)**
- **Cyanidation (gold processing reagents)**
- **Quicklime and hydrated lime**
- **Caustic soda (NaOH)**
- **Hydrochloric acid (HCl)**
- **Sulfuric acid (H₂SO₄)**
- **Nitrates and oxidation products**

OBJECTIVE

Optimize recovery, improve metallurgical yield, and stabilize processing operations.

FLOTATION AND OPTIMIZATION REAGENTS

Used for the separation of valuable minerals (gold, zinc, copper) from gangue

AVAILABLE PRODUCTS

- Flotation collectors
- Frothers
- Activators and depressants
- Industrial flocculants and coagulants
- Clarifying agents

OBJECTIVES

These products help improve mineral separation and optimize the performance of processing units.

02

MINING & INDUSTRIAL WATER TREATMENT PRODUCTS

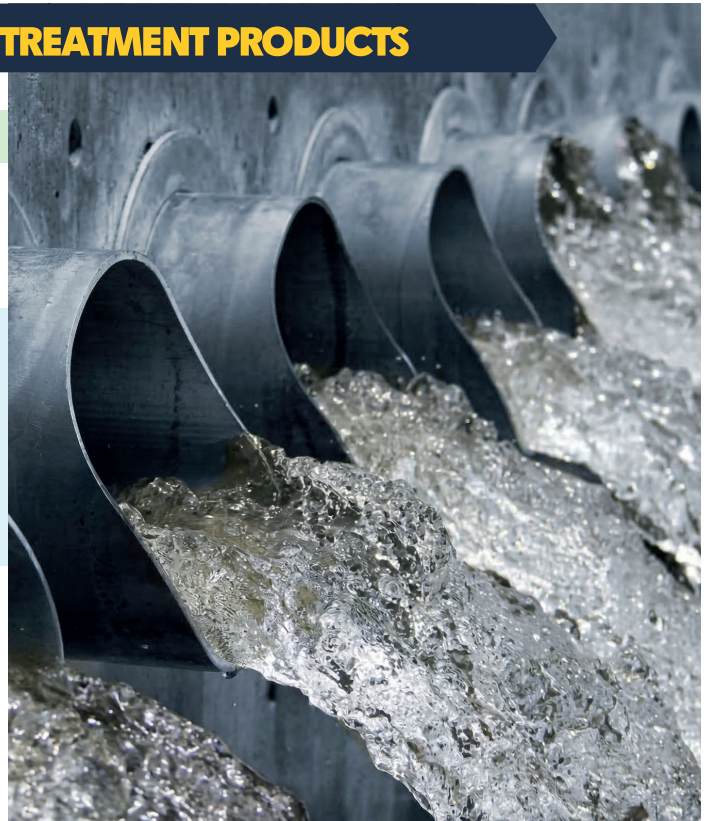

MINING WATER TREATMENT SOLUTIONS

MAISSANE HOLDING provides a wide range of technical bags tailored to industrial and agricultural needs.

- Coagulants (PAC, aluminum sulfate)
- Anionic and cationic flocculants
- Effluent neutralization products
- Industrial disinfectants
- Clarification and settling products

APPLICATIONS

- Mining process water
- Industrial water
- Retention ponds
- Mining and environmental effluents

MINING PERSONNEL SAFETY - HSE COMPLIANCE

MAISSANE HOLDINGS provides certified PPE suitable for high-risk mining environments.

BODY PROTECTION

- Industrial safety coveralls
- High-visibility vests
- Flame-retardant and acid-resistant clothing
- Heavy-duty workwear

HEAD & EYE PROTECTION

- Mining safety helmets
- Industrial safety glasses
- Anti-splash face shields
- Mining headlamps

RESPIRATORY & HEARING PROTECTION

- Dust masks and respirators
- Chemical filter cartridges
- Earplugs and earmuffs

HAND & FOOT PROTECTION

- Cut-resistant, heat-resistant, and chemical gloves
- Safety boots (S3, puncture-resistant)
- Industrial safety shoes

OBJECTIVE

Reduce accidents, strengthen HSE compliance, and sustainably protect on-site teams.

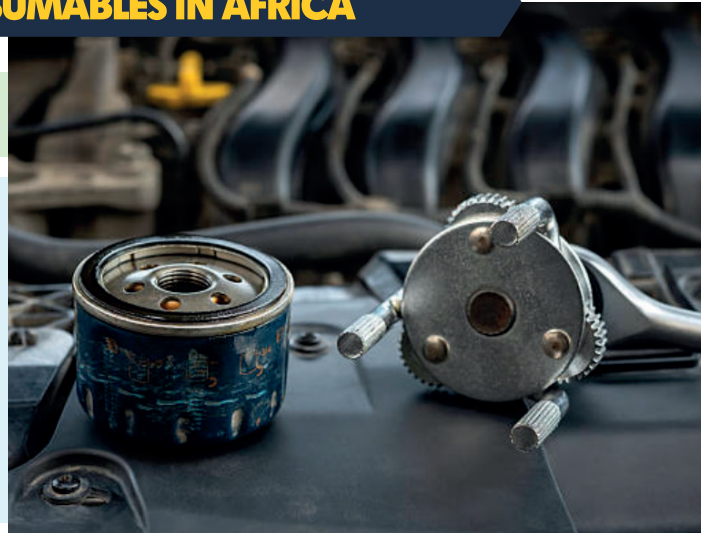

04

HIGH-DEMAND MINING CONSUMABLES IN AFRICA

ESSENTIAL PRODUCTS TO ENSURE UNINTERRUPTED MINING OPERATIONS

- Industrial jumbo bags (Big Bags)
- Industrial pipes and mining hoses
- Industrial lubricants and technical greases
- Industrial filters (air, oil, hydraulic)
- Industrial cables and electrical accessories
- Industrial pumps and spare parts
- Wear parts for mining equipment

05

MINING EQUIPMENT & MACHINERY

OPERATIONAL AND SUPPORT EQUIPMENT

- Mining vehicles (subject to availability and project)
- Extraction and handling equipment
- Mining pumps and hydraulic systems
- Industrial generators
- Metal detectors and laboratory equipment

LOGISTICS & SITE EQUIPMENT

- Secure storage containers
- Handling equipment
- Construction and industrial materials
- Industrial and solar lighting solutions

OBJECTIVES

Optimize recovery, improve metallurgical yield, and stabilize processing operations.

06

SECURITY PRODUCTS & MINING INFRASTRUCTURE

ESSENTIAL PRODUCTS FOR THE CONTINUITY OF MINING OPERATIONS

- Galvanized and razor barbed wire (perimeter security)
- Reinforced industrial fencing
- CCTV systems for mining sites
- Access control solutions for sensitive areas
- Industrial safety signage

**07**

PNEUMATIC & INDUSTRIAL MINING EQUIPMENT

PERFORMANCE, ROBUSTNESS AND CONTINUITY OF OPERATIONS

MAISSANE HOLDINGS offers a comprehensive range of pneumatic and industrial equipment essential for the proper functioning of mining operations, particularly suited to the demanding environments of operating sites in Africa (dust, heat, humidity, intensive use).

Our pneumatic solutions are selected for their robustness, reliability, and durability in extreme conditions.

PNEUMATIC EQUIPMENT

- Pneumatic hammers (jackhammers)
- Pneumatic rock drills
- Industrial air compressors
- Pneumatic impact wrenches
- Industrial pneumatic grinders
- Pneumatic pumps
- Pneumatic tools for mining maintenance
- Industrial compressed air systems

PNEUMATIC ACCESSORIES

- High-pressure pneumatic hoses
- Industrial fittings, valves, and connectors
- Compressed air filters
- Pressure regulators
- Pneumatic lubricators
- Industrial hose reels

OBJECTIVES

Ensure operational continuity, reduce technical breakdowns, and improve productivity on the mining site.

HIGH-TURNOVER PRODUCTS FOR MINING VEHICLES

Tires are strategic consumables in mining operations. MAISSANE HOLDINGS provides industrial and mining tires suitable for heavy machinery and difficult terrains.

TIRES FOR MINING VEHICLES

- Tires for dumpers and haul trucks
- Tires for loaders and bulldozers
- Tires for excavators and graders
- Tires for mining and logistics trucks
- Reinforced Off-The-Road (OTR) tires

ASSOCIATED PRODUCTS

- Industrial inner tubes
- Rims and accessories
- Tire repair kits
- Maintenance and retreading solutions

ADVANTAGES

High wear resistance, performance on rocky terrains, and optimization of operating costs.

**RAPID AVAILABILITY TO AVOID PRODUCTION DOWNTIME**

MAISSANE HOLDINGS ensures the supply of critical spare parts for mining and industrial equipment.

- Filters (air, oil, fuel, hydraulic)
- Industrial belts
- Industrial bearings and seals
- Hydraulic parts
- Industrial batteries
- Hydraulic hoses
- Preventive maintenance kits

OBJECTIVES

Reduce downtime, secure production, and extend equipment lifespan.

**YOUR
OPERATIONS
NEVER STOP.**
NEITHER DOES
OUR LOGISTICS
CHAIN.
